## Mixed Media Canvas

Release your creativity & make a unique metal leaf masterpiece!

### What You'll Need

- X-Press It 12x12" Canvas
- Several colours of Acrylic Paint
- X-Press It Gold Size
- Paint Brushes
- X-Press It Gold Metal Leaf
- All Purpose Sealer or Varnish

Also available in Silver & Copper

#### Step 1:

Apply different colours of paint in layers on your canvas and allow to completely dry.

#### Step 2:

Using a clean brush, apply the X-Press It Gold Size to selected areas of your painted canvas. Allow to dry for 15 minutes or until tacky.

#### Step 3:

Gently position the leaf over the Gold Size. The sheets can overlap & can be broken up to cover a larger area

#### Step 4:

Use a soft, dry brush to gently smooth the leaf and remove any excess. For best results, seal your canvas with an all purpose sealer or varnish.

# X-Press It® Metal Leaf Photos

Add a touch of metal leaf to your favourite photos!

## What You'll Need

- Printed Photos
- X-Press It 2 In 1 Glue Pen
- X-Press It Gold Metal Leaf

Also available in Silver & Copper

### Step 1:

Using the X-Press It 2 in 1 Glue Pen, add fine details to sections of your photo. Lines and dots create an interesting texture. Allow the glue to dry for 10 minutes or until tacky.

### Step 2:

Gently position a sheet of metal leaf over the glue.

### Step 3:

Use a soft, dry brush to gently smooth the metal leaf and remove any excess.

## Creative Inspiration

Metal leaf photos look great in frames! You could also use this technique to create one of a kind cards and invitations.

# X-Press It® Geometric Metal Leaf Box

Create your own unique custom designs!

## What You'll Need

- Kraft Box (5")
- X-Press It Double Sided Adhesive Sheets
- X-Press It Silver Metal Leaf
- Scissors or knife and cutting mat

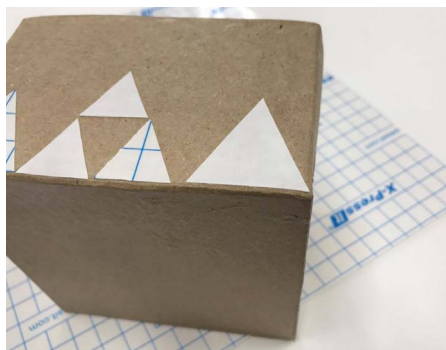

Also available in Copper & Gold

### Step 1:

Using a pair of scissors (or knife with cutting mat) cut the X-Press It Double Sided Adhesive Sheet into triangles.

### Step 2:

Peel the backing off one side of the cut triangles and position them on each side of your box & lid.

### Step 3:

Peel the second layer of backing off one side of your box & gently position a sheet of leaf over the exposed adhesive sheet triangles.

### Step 4:

Use a soft, dry brush to gently smooth the leaf and remove any excess. Repeat steps 3&4 on each side of the box and lid.

## Creative Inspiration

- Try this technique on different projects like mixed media journal pages & scrapbooks layouts.
- X-Press It Double Sided Adhesive Sheets can be cut with a die cutting machine. Try adding metal leaf to your die cut shapes.
